Kieser Hip Osteoarthritis Program

Kieser Knee Osteoarthritis Program

Kieser Spinal Program

I have read and discussed the below criteria with my patient and confirm their suitability for the Program

The Program is an appropriate option which provides an opportunity to delay or prevent surgery

The patient does not have any underlying condition that would prevent them from successfully completing the Program

The patient has a clear understanding of the goals and purpose of the Program

**Signature**

**Date signed**

## Inclusion criteria

Program	Inclusion Criteria
Hip or Knee Osteoarthritis Program	<ul style="list-style-type: none"><li>• The treating medical practitioner must consider that the patient is a likely candidate for joint replacement surgery within the next three years</li><li>• The patient must have a self-reported pain level of 4/10 or higher, on average over the past month, using a visual analogue scale (VAS) for pain.</li><li>• The patient must have diagnostic imaging confirming the diagnosis of osteoarthritis.</li></ul>
Spinal Program	<ul style="list-style-type: none"><li>• The treating medical practitioner must consider that the patient is a likely candidate for spinal surgery, including implantation of spinal cord stimulator devices, within the next three years</li><li>• The patient must have a self-reported pain level of 4/10 or higher, on average over the past month, using a visual analogue scale (VAS) for pain.</li><li>• The patient must have diagnostic imaging confirming the relevant operable spinal diagnosis.</li></ul>
